Number Formation Rhymes

To ensure a consistent approach across the school, we have developed a set of number formation rhymes. Children practise number formation from Nursery and Reception to ensure strong foundations in this area. At Albrighton, the formation of numbers is given equal importance to the formation of letters.

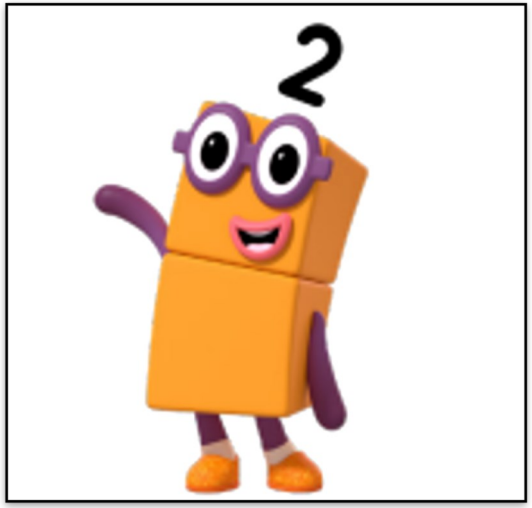

Around to the left to find my hero. Back to the top, I've made a zero.

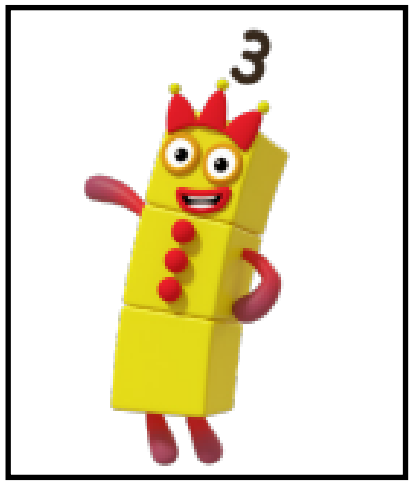

Straight line down and then you're done.

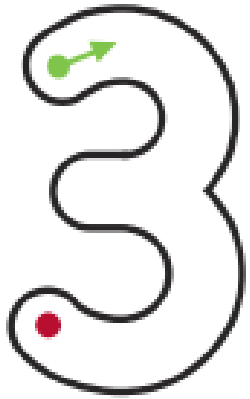

Writing number one is fun!

One curve down is what you do, then straight across to make a two.

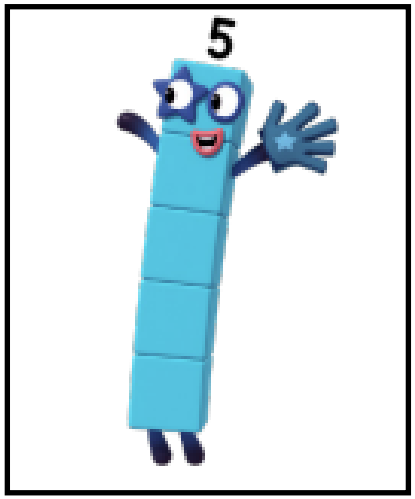

Around the tree.
Around the tree.
That's the way to
make a three.

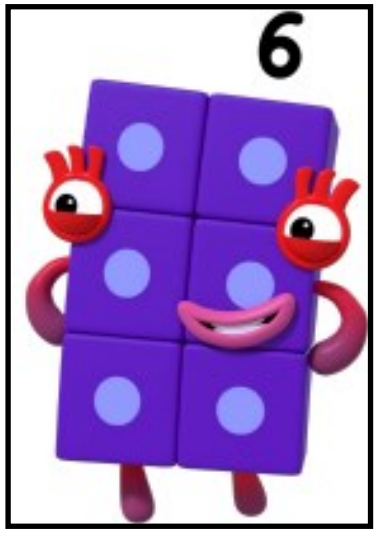

Down and right then
down some more.
That's the way to
make a four.

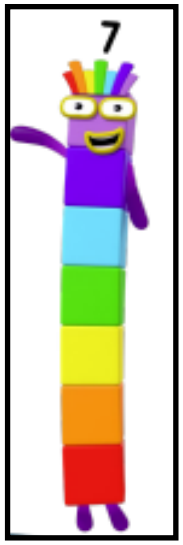

First of all, make five's
back. Then round his
tummy and add his
hat.

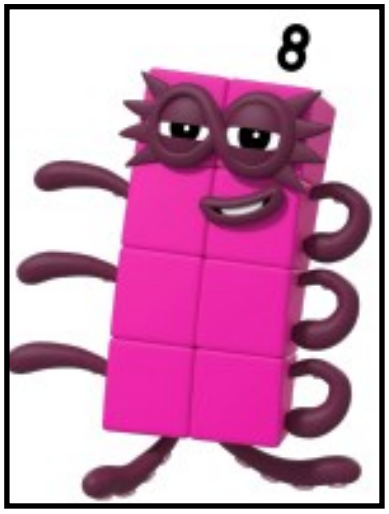

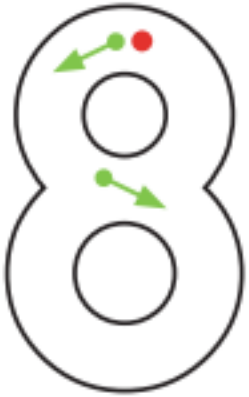

Start with a curve,
then round with a
swish, that's the way
to make a six.

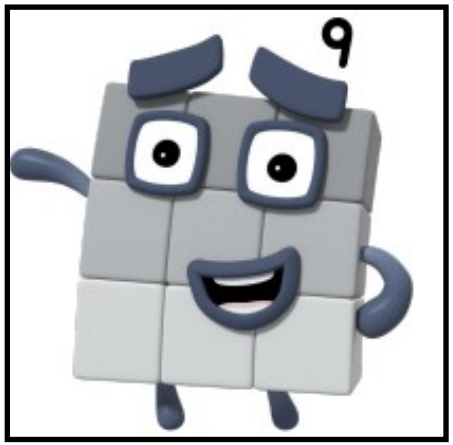

A line in the sky then
down to the ground.
That's how number
seven is found.

An S to start, we're
looking great. Loop
back up and there's
your eight.

A loop- back up- a downward line. That's the way to make a nine.
