Dear Parents and Carers,

Re: Summer Building Works and Start of the New Academic Year

I am writing to inform you about some important building works taking place at school over the summer holiday period. These improvements are part of our ongoing commitment to enhancing the school environment for all our pupils.

The main focus of the works includes the replacement of windows at the front of the main school building and the installation of new main entrance doors. In addition, we are excited to be developing the brand-new **SEN Resource Hub**, which will provide a dedicated and supportive space for our pupils with special educational needs.

While significant progress will be made over the summer, I would like to make you aware that not all works will be fully completed by the time we return for the new academic year. We are working closely with Shropshire LEA and contractors to ensure that any remaining work causes minimal disruption to the school day and that all necessary areas remain safe and accessible for pupils, staff, and visitors.

We appreciate your understanding and patience during this period of improvement. We are confident that the end result will bring long-term benefits to our school community and further support the inclusive and welcoming environment we strive to provide.

Change to wrap-around Thursday 17th and Friday 18th July

To ensure the school is prepared ready for the building work to begin there will need be some changes to our wrap around provision on Thursday and Friday this week. Both before and after school club will take place in the main school building, therefore in the morning and afternoon, children need to be dropped off and collected at the main school entrance.

After the summer break, this will need to continue until the building works are complete in the EYFS building.

Nursery disruption

After the summer holiday, pre-school will be set up and located in the hall in the EYFS building until the renovation works to the pre-school room have been completed. We are hopeful that disruption will be kept to a minimum and work will be completed quickly.

If you have any questions or concerns, please do not hesitate to contact the school office. I will share further information in the new term.

Thank you for your continued support.

Kind regards,

K. Tearle
